

## Attention - HINZ Special Offer

Two special offers to help you work better with colleagues  
and improve your team's overall performance

Your HBDI profile helps you understand your own thinking preferences. Now it's time to use that knowledge to transform the way you work with other people - who all have their own individual ways of thinking.

Herrmann International has a powerful set of tools to help you do just that. They can help transform performance in two areas:

A **“Pair Profile”** will improve the way you work with individual colleagues.

- Understand one another better
- Identify your strengths and weaknesses
- Anticipate, and resolve potential conflicts.

A **“Team Profile”** helps you enhance the performance of your overall team.

- Achieve balance within the team
- Identify where difficulties can occur
- Ensure everybody is included
- Make the most of your team's total potential brainpower.

If you would like to improve the way you work with a colleague or in a team, see your manager today. We're offering a 50% discount on corporate rates for these two profiles (plus GST and Postage).

Pair Profile \$50

Team Profile \$160

All the best and remember to **“Thinkabout It”!**
